LEGISLATURE GONE. QUITE A UNANIMOUS EXODUS OF MEM.

BERS FROM THE CITY. Features that Distinguished This Session-Coupon Measures-Extension of Time for Collection of Taxes, &c.

As a matter of fact the legislative session is at an end, three fourths of the members having gone home, but the two houses will hold so-called sessions to-day, and in the mean time the Governor will have oppor. tunity to sign all the bills passed.

The Legislature met in called session March 16th, and on the 6th of April took a

March 16th, and on the 6th of April took a recess until the 27th. So they have served more than the forty-five days for which the \$150 salary was calculated to pay.

It has been an energetic, hardworking, and faithful Legislature. If they have left undone anything that the people expected them to do it was because they could not perform impossibilities. The session will be historic for the conference held with Sir Edward Thornton and Mr. Braithwaite, and for the adoption of the revised Code. . DEBT LEGISLATION.

"The coupon-crusher," which was framed by some of the most illustrious lawyers of e State before the General Assembly met, was the most important piece of coupon legislation adopted. It proceeds upon the theory that the United States Supreme ourt has decided that the State may com

Court has decided that the State may compel a man using coupons to prove their genuloeness, and under it the State will bring such persons into court, where if they fail in sufficient proof they will be punished in costs.

Another "coupon bill" which has become a law makes it a misdemeanor for any one to use the same coupons twice in paying taxes; but there is that vagueness in the set which, in the opinion of some Democratic lawyers, will make it easy of evasion. The same act also provides for the keeping by the collecting officers of "a record of coupons purporting to have been clipped from bonds of the State tendered for taxes. Successful working of the scheme,

The legislation enacted will probably save the State from the coupons until Deber, when the General Assembl erect in regular session, and when, if the redutors still persist in refusing to accept the Riddleberger bill, this measure, or fr. Fulkerson's scrip bill, or something etter, can be adopted.

The Legislature have empowered the In-

EXTENSION OF TIME FOR THE COLLECTION OF STATE TAXES. It will in a month or two be announced by the enemies of the Democratic party that the State Treasury has been "depleted" by the Legislature, and it is well for the people to understand how it will in a newsure come about. It will be the result of the Legislature giving the impovement of the legislature giving the giving the legislature giving the legislature giving the legislature giving the giving the legislature giving the giv

suit of the Legislature giving the impoverished people of the Common wealth a longer time within which to pay their taxes. Tout's all. The Legislature has made some large appropriations—872,000 for soldiers, \$55,000 for Kendall judgment, \$50,000 for prioting the Code, &c.—but they were invitable expenses and had to be met.

The act of April 6, 1887, provides that the several treasurers and collectors of taxes due the State be allowed until the first day of September, 1887, to make their thal settlements with the Auditor of Public Accounts of the State taxes on real and personal property for the year 1886; provided sonal property for the year 1886; provided that the extension of time hereby granted shall not apply to taxes already collected. and in the bands of such treasurers and collecting officers, which shall be paid into the Treasury of the State as provided by

Usually the collecting officers have to make their settlements by June 15th. Now they have until September 1st—an extension amounting to two and a half months. Our ring that time only license-taxes will be coming into the Treasury, while expenses will be going on all the same.

constitutional convention 1888.

Some of the legislative gentlemen who were most ardent in advency of the constitutional amendment to bar all obligations of the State not funded into Riddleberger bonds (new 3's) within a limited time declare their purpose to push the question before the State Democratic Convention to be held this auminer. By others, however, it is argued that nothing the General Assembly can now do will facilitate constitutional action, masmuch as at the general election to be held in 1888 avote is required to be taken on the question "Shall there be to be taken on the question "Shall there be a convention to revise the Constitution and amend the same?" So, unless this General Assembly is to have another extra session—an improbable thing—about the quickest way to amend the Constitution will be by calling a convention.

Judge Atkins yesterday overruled the motion in street of judgment made by W. P. Crump, convicted of conspiracy and punished with a fine of \$5. This motion the Court also overruled, and Judgment was rendered according to the verdict. As Mr. Crump has paid the line and costs this ends the trial in the Hustings Court so for as he is concerned. lowing opinion:

RICHMOND, May 21, 1887.

To the Committee on Grounds and Buildings:
Gentlemen.—I am in receipt of a copy of the resolution adopted by you on May 18th, and as to which you ask for my opinion. The said copy is herewith enclosed. Chapter 108 of the City Ordinances defines your powers as to the building of the City Hall. On August 18, 1886, sections 2 and 3 were amended, but see tion 4 remains as it was originally passed. The latter section provides that "the Engineer of the city, under the direction of the Committee on Grounds and Buildings, shall have cearfol of the construction and furnishing of said City Hall." &c., &c.

You will see that the "control of the construction and furnishing of said City Hall." &c., &c.

You will see that the "control of the construction" is ledged by the ordinance in the City Engineer. You will also see that the said control is to be "under the direction" of your committee. What, then, is meant by the words "under the direction of the Committee on Grounds and Buildings"? Did it mean that whatever steps the Engineer should take in and construction should be under instructions given by you? Such could hardly have been the intention of the Council; for such a construction would uselessly hamper the "control" bidged in the Engineer. Indeed, under such a construction the "countrol," which the ordinance places in the Engineer, would be lodged in your committee.

I think that the proper construction of the words "under the direction" of your committee is that the conduct and acts of the Engineer therein are subject to the supervision of your committee, with power to approve or disapprove.

Such being my construction of the ordinance. I am of opinion that your said resolution of May 16th is beyond the scope of your powers

and void.

I am of opinion that the power of empleyment is with the Engineer. You have the right to disapprove of any appointment. Should you do so it would be the duty of the Engineer to make another appointment, which would also be subject to your approval or disapproved.

I am strengthened in the above opinion by section 9 of the resolution adopted by your committee and reported to the Board of Aldermen August 9,186. In that section you informed that branch of the City Council that you proposed to pursue the very course which I state above is in accordance with the proper construction of section 4 of chapter 10c, City Ordinances. Very truly,

C. V. MEREDITH, City Attorney.

FORMAL OPENING OF THE CAMP-THE FLAC (By Associated Press)
Washington, May 22.—The opening formalities of the national drill took place at noon to-day, and were very brief and sim-ple. A corps of policemen cleared the space about the flagstaff in front of camp headquarters in Monument Lot. The Weshington Light Infantry corps of this District, headed by the Third (regu-lar) Artillery band, marched in and for med a hollow square. General Augur and staff entered the square and stood with un-covered heads white the chaplain invoked God's blessing upon the camp, officers and soliders, the people, and the Government of the United States. Troops are still coming in at intervals, and are welcomed at the stations and escorted to their allotted places in camp by crowds of sight-seers. Pennsylvania avenue is liberally decorated with bunting, and the town has taken on, in an informal way, its holiday attire. The strangers in town not connected officially with the drill number some thousands, though the capacity of the places of entertainment are by no means overlaxed as yet.

The camp-ground is to-day the centre of interest. Fifty acres or more of the Monument Lot have blossomed lato a city of snowy canvas, and the sights and sounds are as much like those of setual warfare as anything which the present generation of young Americans has ever witnessed.

The competitions between the infantry companies will take place Tuesday, Thursday, Friday, and Saturday, the zonave competitions Tuesday and Thursday, regimental reviews and competitions Wednesday, cadet competitions Saturday, artilitery drills Thursday, and Individual competitions Thursday and Friday.

The prizes will be awarded Monday of next week. Washington, May 23.—A delegation of twenty-five gentlamen, representing the business interests of St. Louis and including representatives of all branches of the municipal government, waited upon the President at noon to-day and extended to him and Mrs. Cleveland a cordial invitation to visit St. Louis during the coming fall. The delegation was headed by Mayor Francis, and included Messrs. George K. Allen, president of the Cliv Council; John S. Moffit, John G. Prather, John G. Priest, Jordan W. Lambert, S. P. Galt, Joseph Spechi, Lawrence Harrigan, D. S. Phelan, George D. Barnard, and General E. D. Meier. (By telegraph to the Dispatch.)

They were ac companied by Commissioner Mctr.

They were accompanied by Commissioner Colman and Mr. Switzler, of the Bureau of Statistics. The invitation was contained in a large, elegantly-bound book with curved wooden covers, the carvings representing the great bridge and the principal municipal buildings of St. Louis. The clasp and edges of the book are of solid silver, hearing the invited "G.C." The invitation is beautifully engrossed on satin and is signed by over 20,000 persons. The President received the delegation in the Cabinet room. Mayor Francis made a short address, in which he said that while the people of St. Louis would be glad and honered to receive a visit from the President at any time it would probably afford them greater plea sure if he could arrange to be in St. Louis during the Grand-Army encampment in sure if he could arrange to be in St. Louis during the Grand-Army encampment in September next. > A Card from Mr. Campbell. RICHMOND, VA., May 23, 1887.

To the Editor of the Dispatch:

In your issue of Sunday I notice under the head of "A Correction" that you state that I swore out a warrant unnecessarily against Mr. A. J. Harfeld. In justice to myself I desire to state the facts. On the ome evening when my watch was stolen i took the precaution to notify Messrs. A. J. Harfeld & Son, as well as others, giving an accurate description of the watch, and re-quested them to look out for it. At the time I called on Messis, Harfeld & Son they did not have the watch. On the following they thought that they had now watch. I immediately called on them and identified traveline. They informed me that I would it as mine. They informed me that I would have to make an affidavit that the watch was mine, and upon the payment of \$15.50 (the amount they claimed to have loaned on the same they would deliver it. With the above facts I did not feel it incumbent upon me to be thus taxed. I then called on Chief-of-Police Poc, who, after hearing my statement, advised me to procure a search-warrant for the recovery of my property. The matter was brought before the Police Justice, who decided that Messrs. Harfeld & Son should deliver my watch free of cost
